Topic E • Lesson 21

Draw Ones, Tens, and Hundreds

I can draw ones, tens, and hundreds to make groups of tens, hundreds, and 1 thousand.

Ones, tens, and hundreds

100 200 300 400 500 600 700 800 900 1000

10 hundreds = 1 thousand

Draw units

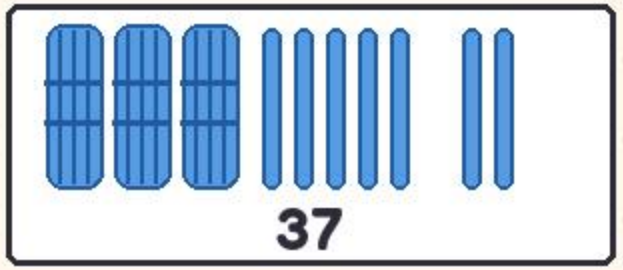

one	ten	hundred
		
1	10	100

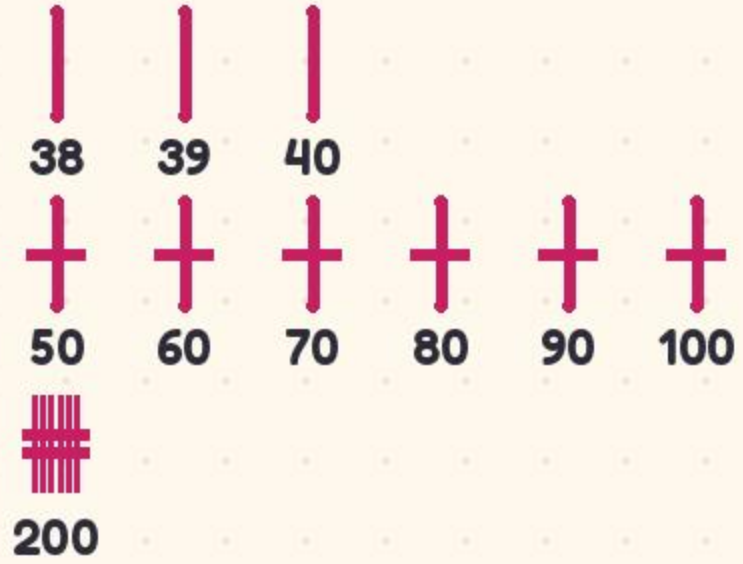

326

Practice Partner 1

Draw units to count from 37 to 200.

The next ten is 40. I draw ones to get to 40.

Next, I draw 6 tens to get to 100.

Last, I draw 1 hundred to get to 200.

We counted to 200!

Practice Partner 2

Draw units to count from 326 to 750.

326

327 328 329 330

340 350 360 370 380 390 400

500 600 700

710 720 730 740 750

First, I draw 326.

Next, I draw 4 ones to get to 330.

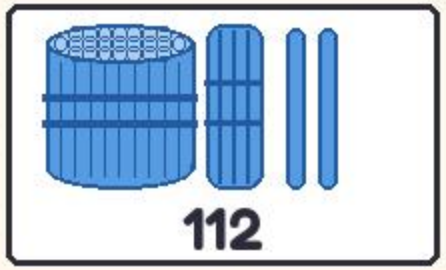

Then, I draw 7 tens to get to 400.

Then, I draw 3 hundreds to get to 700.

Last, I draw 5 tens to get to 750.

We counted to 750!

Practice 1 **Draw units to count from 112 to 200.**

113 114 115 116 117 118 119 120

130 140 150 160 170 180 190 200

The next ten is 120. I draw ones to get to 120.

Last, I draw 8 tens to get to 200.

We counted to 200!

Practice 2

Draw units to count from 476 to 800.

476

477 478 479 480

490 500

600 700 800

First, I draw 476.

Next, I draw 4 ones to get to 480.

Then, I draw 2 tens to get to 500.

Last, I draw 3 hundreds to get to 800.

We counted to 800!

Lesson 22: Problem 2

Draw units to count from 578 to 920.

578

579 580

590 600

700 800 900

910 920

First, I draw 578.

Next, I draw 2 ones to get to 580.

Then, I draw 2 tens to get to 600.

Then, I draw 3 hundreds to get to 900.

Last, I draw 2 tens to get to 920.

We counted to 920!

Remember!

- Draw the first number.
- Draw ones to get to the next ten.
- Draw tens to get to the next hundred.
- Draw hundreds.
- Draw tens or ones to finish.
- Say each number as you draw!

Great job! See you next time!
